- WIN-What's Important Now-Always focus on the task at hand
- Mentally prepare and know this may be the toughest event you will ever face
- Run and escape if you can
- Hide-Seek cover and/or concealment- Remember cover stops bullets and concealment hides you. Cover is often hard to find so do not waste a lot of time deciding. Hide and get out of the line of fire
- Lock and barricade door if you can't escape. Get out of the line of fire. Stay quiet (mute cell phones) and plan for attack if subject enters
- Fighting is last resort but when you have to fight, commit. Use improvised weapons and swarm techniques. Take the attacker out
